

Puppy Dog 1 (1) 1st Edward's Shanlimore Midnight Cowboy. Seven month old all white dog, well off for bone with good ear set, pigmentation and bite. Correct angulation led to sound movement. Appeared to be thoroughly enjoying himself, unfortunately lost out to his litter sister for best puppy, due to looking a little 'leggy' on the day (to be expected at this age).

Junior Dog 3 (3) 1st Dunk's Zpontaineouss Zurgesteon at Zalute. 13 month old dog, excellent pigmentation and angulation, movement free and easy. Well presented in his "summer coat" which confirmed his balance and construction. 2nd Fothergill's Donatare Star warrior. 7 month old dog, well off for bone, full coat, good head shape, correct bite and pigmentation. Moved well (but not as free as 1st). Solid, well balanced dog.

3rd Jones' Sno Watt. 14 month old coloured dog, good coat (well prepared) strong head and correct ear set. "tight feet". Didn't want to move on the day so wasn't showing his best, but given his construction he should be OK when mature.

Post Graduate Dog 3 (3) 1st Dunk's Zpontaineouss Zurgesteon at Zalute. 2nd Carvell's Venkersh Sentinel. 2 year old coloured dog, strong broad head with kind expression, good heavy coat and well off for bone. Correct angulation, but carrying a little extra weight, which meant movement was not as free as 1st. Bite and pigmentation good, pushed No. 1 all the way, very close. 3rd Jones' Sno Watt

Open Dog 2 (2) 1st Goodman's Zcintillating Zed at Zalute. 3yrs 9 month old dog all white, well presented and good overall balance. Correct head, eye and ear set. Drove well from his hind quarters, strong but flexible in the stifle. Got the impression that even on a hot day he would keep moving all day. Best Dog and Best of Breed. 2nd Carvell's Venkersh Sentinel

Puppy Bitch 1 (1) 1st Edward's Shanlimore Maria. A lovely little girl - very feminine, in beautiful condition with that far away expression. Nice pigmentation, well off for bone, correct ear set and bite, angulation reflected in sound movement. Well presented, a credit to her owner. Best Puppy.

Junior Bitch 3 (2) 1st Goodman's Annanya Little Rascal. 12 month old all white bitch, well presented, balanced and moved well, correct bite and pigmentation, decided to 'blow' her coat but good construction underneath. 2nd Carvell's Caselbard Queen of Diamonds. 15 month old bleaireu bitch. Pigmentation excellent, good ear set, eyes and bite. Coat clean and well presented. Did not move as free as 1st, I felt she probably preferred to have stayed at home on such a warm day.

Post Graduate Bitch 4 (3) 1st Parry's Penprior Vaguely Blue of Cwmrhondda. 23 month old all white bitch with a lovely expression - dark eyes, pigmentation and good ear set. Angulation and bone were sound but carrying a little extra weight which contributed to less free movement than otherwise should have been the case. A nice young lady. 2nd. James's Gillandant White Symphony. 2 1/2 year old bitch, well off for bone and strong pigmentation. In full coat, with movement complimenting a sound construction. Preferred the femininity of 1st. 3rd Fothergill's Amber Capaliegh. 3yrs month old bitch - kind expression, strong head, good ear set and bite. Well presented, movement not as free as 1st and 2nd.

Open Bitch 5 (3) 1st Goodman's Zora Zedora at Zalute. 3yr 9 month old bitch, again well presented by this owner, strong pigmentation, nicely balanced with pleasant markings, sufficient bone, movement very free. Best Bitch. 2nd Edward's Shanlimore Karousel. 5 1/2 year old blaireau bitch in good condition, nicely marked, heavy bone, well balanced. Head, ears, eyes all correct, liked her a lot, unfortunately decided not to move for me on the day, although well constructed. Reserve Bitch. 3rd Dunk's Zalute Zyranasaurus 3yr 9 month old bitch - correct bite, ear set and eyes. Movement satisfactory, preferred overall balance and outline of 2nd.
