

## **PYRENEAN MOUNTAIN DOG CLUB OPEN SHOW – 20<sup>th</sup> April 2008**

The PMDC of GB Club held its open show at the The Jack Mytton Inn, a superb venue but sadly the weather could have been kinder us. I forgave some lack of presentation due to the weather conditions, however, dirty teeth was apparent in the majority of exhibits. Temperament of all of the exhibits was excellent and I was extremely pleased with my main winners.

### **Veteran Dog (2, 0 abs)**

1.Srodzinski's **Ch Laudley Dream Supreme** 8 ½ years old and in super condition for his age. Masculine head with correct proportions, gentle sloping stop, excellent dentition and pigmentation, correctly placed eyes and ears. Strong neck, good depth to his body although would like slightly more length in back. Good bone and adequate angulation front and rear. In excellent coat and moves in unison with his handler. BVIS, RBD & RBIS.  
2.Denyer's **Ch Milenjohy Lord Brogan of Batapyr ShCM** at 7 ½ years old is starting to show his age, still in good condition but sluggish on the move today. Masculine head showing blunt 'V', nice eye, strong muzzle, good pigmentation, correct bone for the size of dog, correct angulation, kept his topline on the move. RBVIS.

### **Minor Puppy Dog (0)**

#### **Puppy Dog (2,0 abs)**

1.Lords **Laudley Phantom Sceptre** at that very raw stage, all legs and his body still needs to catch up. Light blaireau has an appealing head of correct shape and proportion, Eye and ear placement correct, eyes of good colour, correct dentition, excellent pigmentation. Liked his overall shape despite having a very tucked up underline. Level topline leading to sloping rump and a good length tail, one of the few with the crook in the tail. Medium angulation, neat feet, now just needs to settle on the move. BPD

2.Hewart, Chambers & Kennedy's **Stonesome Enter Sandman Via Sunhaze** very different type to 1. Heavier all through & carrying excess weight. Attractive, strong head and muzzle, gentle slope to stop, nicely domed from front & side. Good pigment and dentition. Almond shaped dark eye. Strong neck, deep body with good bone, legs and feet, good length to tail. Was not moving as his construction should warrant him today.

#### **Junior Dog (2, 1 abs)**

1.Inglis' **Tangstan Tsarius** Maturing well at 14 months, heavier type, good pigment, strong head with correct dentition and slightly domed, leading to strong neck, level topline. Correct angulation, well muscled thighs. Good mover when settled, would like neater cat like feet. Another with the crook in his tail.

#### **Special Yearling Dog (2, 1 abs)**

1.Inglis' **Tangstan Tsarius**

#### **Maiden Dog (2,0 abs)**

1.Inglis' **Tangstan Tsarius**

2.Lords **Laudley Phantom Sceptre**

#### **Novice Dog (5, 2 abs)**

1.Coomers **Coomkirikye Tayce** Attractive tall dog, nicely balanced, slightly short in muzzle, head too domed, has a beautiful well placed dark eye, tight lips, good mouth, nicely bodied for age, correct angulation, kept his topline and moved reasonably well. Well presented in good coat.

2.Inglis' **Tangstan Tsarius**

3.Lords **Laudley Phantom Sceptre**

#### **Undergraduate Dog (4, 2 abs)**

1.Coomers **Coomkirikye Tayce**

2.Inglis' **Tangstan Tsarius**

#### **Graduate Dog (2, 1 abs)**

1.Coomers **Coomkirikye Damarys** 18 months, tall dog with attractive markings, litter brother to Novice & Undergraduate winner and very similar comments apply. Moved well as seen from the side. Excessive dark pigmentation around one eye makes it appear that one eye is larger than the other. Could have neater rear feet, well presented.

### **Postgraduate Dog (3, 0 abs)**

**1. Kenyon & Wards' Charibere Secret Of Ours At Chezanna** Tall well balanced, appealing dog in good condition. Handler let this dog down today, he has an attractive head which wasn't helped by the neck ruff being pushed forwards making him appear stuffy. He has small eyes which I found lacked expression. Tight mouth, good dentition, neat ears, good body, strongly boned legs, neat feet, medium angulation throughout, moved better in the class than in the challenge which cost him.

### **2. Coomers Coomkirikye Damarys**

**3. Flounders Pyrhaven Tudwick Wogan For Lakamoni** very different type to 1 and 2, heavier, too heavy in head with a short deep muzzle, dark pigment and eyes. Deep body with a soft topline, well muscled but lacking rear angulation, good side action on the move but lacks coming and going.

### **Limit Dog (3, 1 abs)**

**1. Whitfield's Penpriory New Statesmen Of Dennaje** the star of the show, have never seen him look so good as he did today. Extremely handsome dog combining height and balance. Super head with good pigment, small correctly shaped and placed dark eyes, small neat ears, pincer bite, correct weight and body for his size, level topline leading to slightly sloping rump, medium angulation, correct length of tail, neat feet and in excellent condition. Moved with drive. Must surely gain his crown in time. BIS

**2. Fieldhouse Pyrenmount Hariel** Tall lightly blaireau marked dog, liked his overall shape, has a good head with sloping stop, longer in muzzle than I prefer and slightly loose in lips. Dark eyes, good depth of body, level topline, neat feet, moved okay once he settled.

### **Open Dog (3, 1 abs)**

**1. Maggs Ch Zalute Zerendipitee Of Dewyche JW ShCM** 6 years old and in excellent condition. Tall and balanced, excelled in movement showing off his correct angulation, level topline and neat feet. Strong head in good proportion, nose pigment could be darker and would like a better expression.

**2. Dunks Zalute Zuperlativaddition** Tall well built light blaireau dog, still maturing which is no criticism. This dog has strong bone and a good length and depth to his body, stands rather overangulated in the rear which detracts his appearance. Level topline, good length to his tail and in excellent condition. Wasn't comfortable with the soft ground when moving. 2 very nice dogs from this kennel.

### **Veteran Bitch (1, 1 abs)**

### **Minor puppy Bitch (0)**

### **Puppy Bitch (2, 0 abs)**

**1. Hewart, Chambers & Kennedy Stonesome Fade To Black Via Sunhaze** 11 months old, very mature looking bitch. Loved her overall outline and she did not disappoint. Good head with 'v' shape and gentle sloping stop, excellent pigmentation, tight lips and correct dentition. Almond shape eyes correctly placed of correct colour. Strong neck, good depth to her body and medium angulation front and rear, level topline and sloping rump. Has very good front movement, can still tighten on rear movement but has time, one to watch for the future, pushed BB very hard for top spot. RBB & BPIS

**2. Whitfield Pyrdanti Bellagiola** taller and finer type to 1, attractive head markings, reasonable head, good dentition, eyes and ears, pleasing overall shape but needs to broaden all the way through and strengthen on movement.

### **Junior Bitch (3, 1 abs)**

**1. Greens Tangstan Tsar Rosa** 14 months, like her outline. Head could be more feminine and ears smaller. Correct dentition, pigment and tight mouth. Eyes could be better. Good body with level topline, good bone and neat feet. Correct angulation which showed in her movement, moved well. This bitch was in advanced stages of whelp and was entered in a number of classes and as a result tired in the challenge.

**2. Flounders Sketrick Izzianette At Lakamoni** this bitch has the most feminine head I have seen. No coarseness, correct fill under the eyes, beautiful expression, good pigment, dentition and tight mouth. Body

can still develop and she is a little straight in rear angulation. Neat feet. Lacking coat and didn't move too well today.

#### Special Yearling Bitch (4, 2 abs)

1. Greens **Tangstan Tsar Rosa**

2. Flounders **Sketrick Izzianette At Lakamoni**

#### Maiden Bitch (1, 0 abs)

1. Whitfield **Pyrdanti Bellagiola**

#### Novice Bitch (3, 3 abs)

#### Undergraduate Bitch (2, 2 abs)

#### Graduate Bitch (3, 1 abs)

1. Terrys **Zalute Ztatusqowoutonawim** Beautiful feminine head, correct proportions, no coarseness, sloping stop, lovely expression, good dentition and tight mouth, would like slightly smaller ears. Good body length and excellent topline held on the move, adequate bone, neat feet and correct angulation, could broaden throughout to complete, lacking coat today, moved well.

2. Flounders **Sketrick Izzianette At Lakamoni**

#### Postgraduate Bitch (3, 0 abs)

1. Terrys **Zalute Ztatusqowoutonawim**

2. Wilcocks **Penpriory New Thoughts At Penelley**  
At 2 years is maturing nicely, tall bitch in good proportions, feminine head, good pigment, eye shape and colour giving a good expression, tight lips. Body still maturing as expected but has a nice outline and is well muscled, adequate bone, correct angulation and neat feet. Didn't move to her advantage today, very close to 1 and will swop places on another day.

#### Limit Bitch (4, 0 abs)

1. Greens **Tangstan Tsar Rosa**

2. Wilcocks **Penpriory New Thoughts At Penelley**

3. Lords **Laudley Pernilla Zane** very feminine head, no coarseness, sloping stop, good eye and colour, tight mouth, good body but would like more length, soft topline, good legs and neat feet, correct angulation, well presented and moved well.

#### Open Bitch (3, 0 abs)

1. Dunks **Ch Zalute Zuperzofistication** 6 years old and in excellent condition, feminine head with correct proportions, excellent pigment, good dentition and tight lips, beautiful expression, strong neck and good depth to body, in good coat and move with drive. BB & BOS.

2. Srodzinskis **Ch Darimba Sariba Silk Satin** also 6 years old and well muscled, carrying a little too much weight for me, good head and expression from correct eye shape, placement and colour, excellent dentition and tight lips, good pigment, good depth and length to her body, medium angulation, strong boned legs and neat feet, held her topline but lacking enthusiasm on the move today cost her.

3. Wilcocks **Granchester Lady in Red at Penelley.**

**Yvonne Baverstock (Kalkasi) - Judge**
